The last 2 colors were alternated within the stripes. The Stripes are achieved by tying the yarn together prior to knitting the sweater. Once you have wound the yarn, determine the progression of colors that you want for the striping. Then cut a 5-yard length of your first color (usually just 5 pulls with your arm fully stretched), knit it to the next color and cut a 5-yard length of that color. Continue until it is all cut, knotted and wound . It is a good idea to make a number of baseball-sized ball, always starting with the first color of your series an ending with the last color of the striped series.
